Circular No. *dated 2nd November* 1917.

HOW TO COMBAT COFFEE BORER.

As a result of the experiments conducted by the Department of Agriculture it has been found that scrubbing the stems twice during the period the adults of the borer are out will considerably reduce the number of trees that have to be pulled out and burnt the year following. At the suggestion of the Department several estate owners last year scrubbed their coffee. The results obtained are given below :—

Name of owner.	Acres	Average No. of plants annually pulled out 1914 to 1916	Number pulled out in 1917 after scrubbing in 1916
1. Mr. G. Ahamed Pasha Saheb	62	14,000	1,200
2. „ A. Mohamed Hussain Saheb.	85	3,000 to 8,000	700
3. „ Abdul Sattar Saheb ...	5	200	5
4. „ Ali Akbar Saheb ...	12	900	50
5. „ Abdul Khudus Saheb and Budandin Saheb.	5	300	3
6. „ Kader Mohadin Saheb ...	20½	100 to 300	none.
7. „ Allaudin Saheb ..	4	600 to 800	25

As will be seen, the results are very encouraging and warrant the adoption of scrubbing by all coffee planters. The following directions are therefore given for adoption by them. The number of plants that can be scrubbed by one cooly per day is about 70 to 200 and scrubbing will have to be done twice with an interval of a fortnight between the two operations. To get the best results, the date of general emergence has to be ascertained. This usually varies with conditions of rain and heat but is usually about the first week of November. This year it is likely to be a little later as the north-east monsoon has been profuse. From observation it is not likely to commence until the 4th week of November. Scrubbing should be undertaken then. It is best done with brushes made as follows. The cocoanut is shelled so as to split the fibre into three parts of which the upper portions are cut off. The hard blocks of closely packed fibre so made are cheap and admirably adapted for scrubbing. Efforts should also be made to catch the beetles which are small and sluggish and which may be found on the coffee trees. The Assistant Entomologist who will be stationed at Saklespur may be addressed for any help that may be required.

2. The tender must be superscribed "Tender for standing trees" and must be accompanied by a deposit of Rs. 100 in currency notes or cash as "earnest money." There will be a separate tender for each coupe. The deposits of unsuccessful tenderers will be returned at once and of the successful tenderers will be held as security for the due performance of the contract.

3. Tenders may be made for the timber of the whole coupe or for a specified number of trees of each kind but applications for less than 10 trees (ten) will not be entertained. The rates offered must be based on the outturn of timber in cubic feet after squaring or dressing and shall vary according to the cubic contents or girth of the logs or pieces.

4. The final acceptance of the tenders will rest with the Conservator of Forests who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

5. The successful tenderer will, within a week of the receipt of the intimation of the acceptance of his tender or tenders, execute an agreement accepting the terms specified below; in default, the order of acceptance will be cancelled and the deposit forfeited to Government.

(*a*) That he binds himself to fell and remove the timber he has purchased in not less than the following proportions:—

One-half by the 15th of April 1918.

Balance, 15th June 1918.

(*b*) That trees shall be felled in consecutive order as they are marked. Picking and choosing will not be allowed.

(*c*) That he shall fell the trees he has purchased and dress the logs on the spot. He will not be bound, however, to remove such logs, as the District Forest Officer may declare to be unsound and unfit for sale without recourse to sawing.

(*d*) That only saws will be used for cutting up the logs into the required lengths, and that, while he is permitted to remove whitewood, knots and flutes, he shall cause no unnecessary waste in dressing the logs.

(*e*) That he binds himself to pay for and remove all marketable portions of a tree, either in logs pieces or poles.

(*f*) That the timber prepared out of each tree shall be measured and stamped by the Range Officer or such other officer as the District Forest Officer may authorise at the stamp.

(*g*) That he shall pay for all the timber measured as per clause (*f*) before removal from the forest or the depot fixed by the District Forest Officer.

(*h*) That all removal shall be effected under passports issued by the Forest Officer in charge of the forest or depot and on presentation of the Treasury receipt for the value of the timber he intends to remove.

(*i*) That if any tree other than the one bearing the departmental stamp impression is felled he will pay a fine not exceeding Rs. 15 for each tree.

(*j*) That the timber paid for but not removed within six months of the termination of the contract shall lapse to Government.

(*k*) That he agrees to such timber as may not be paid for before the 15th June 1918 shall lapse to Government.

(*l*) That he agrees to abide by the rules of the department as regards kindling of fires and holds himself responsible for any forest offences committed by his agents, employees and workmen.

(*m*) That he agrees to the cancellation of the contract and the forfeiture of his deposit for breach of any of the terms of his contract.

(*n*) That he agrees to maintain a register in the form prescribed by the District Forest Officer showing the serial number and kind of trees felled and the outturn of timber for each tree which will be open to the examination of all the Forest Officers.

Note.—Elephants could be hired when available on payment of a hire of Rs. 6 per male and Rs. 5 per female for working day of six hours.

MYSORE IMPERIAL SERVICE TROOPS WAR FUND.

DASARA EXHIBITION SALE, 1917.

Dated 11th December 1917.

At the meeting of the Managing Committee of the Fund, held on the 11th July 1917, under the Presidency of His Highness the Yuvaraja of Mysore, G.C.I.E., it was decided that, with the co-operation of prominent gentlemen in the State, attempts might be made to collect gifts in kind and organize a sale during the Dasara Exhibition in Mysore.

Agreeably to the decision, an appeal was made to the public for gifts of articles of artistic merit or otherwise interesting or valuable.

Several persons promised articles in response to the appeal and some gentlemen offered money contributions in lieu of articles. The paucity in the number of articles received rather discouraged the idea of having a sale at first, but when about the beginning of October 1917, articles worth over Rs. 1,000 were promised, it was unhesitatingly decided to hold the sale as originally decided upon. As it was thought that the first appeal was not sufficiently published for all patriotic citizens participating in the contribution to the Fund, a second appeal by way of reminder was made about 5th October 1917.

In the meanwhile and in reply to the offer of the donors of articles in kind, Deputy Commissioners of Districts were requested to arrange to collect all such articles and send them to Mysore along with their district exhibits.

The Exhibition authorities were kind enough to allot a very conspicuous part of the Exhibition premises for exhibiting the collected articles prior to their sale. Despite the fact that the articles were of a variety of kinds as is evident from the list thereof appended and that they had all to be exposed in a single room, a somewhat artistic arrangement was effected in displaying them. This exhibition served to attract some more things from Mysore gentlemen and visitors, perhaps out of a spirit of emulation. The very fact that articles were pouring in up to the last day of the Exhibition is indicative of the interest and spirit of hearty co-operation evinced by the public in the cause of their countrymen who are risking their lives at the front for the Empire.

The form which the sale should take, was then thought of and one by public auction was considered to be the most suitable. The auction was held in the Exhibition premises for three days from the 26th October 1917, and His Highness the Yuvaraja of Mysore and other eminent personages—permanent residents of Mysore as well as temporary visitors there—were kind enough to make the sale a success by their presence on the spot.

During the first day of the sale when Sirdar Kantaraj Urs acted as auctioneer and on which His Highness the Yuvaraja graced the occasion with his presence the competition was greatest, only 39 articles valued at Rs. 372. being auctioned realizing a sum of about Rs. 1,500. Among these 39 articles a special mention cannot but be made of a photo frame with a photo of His Highness the Yuvaraja of Mysore (presented by Mr. Mahomed Sait of Mysore, the portrait being autographed by His Highness the Yuvaraja on the spot). This memento after a long contest in which the bids rose by leaps and bounds was secured by Rajasabhabhushana Dewan Bahadur Mr. C. Srikantesvara Iyer, B.A., B.L., Retired Inspector-General of Police, for Rs. 500. The sales of the remaining two days realized nearly Rs. 1,000. Some of the articles that were sold during the three days were given back as gifts to the Fund by purchasers.

In order to give an opportunity to the merchants and persons of ordinary means of Mysore to contribute their mite to the cause and also to get ready money for the still remaining articles, they were arranged to be sold by auction at the Rangacharlu Memorial Hall on the 3rd and 4th November 1917. All the articles except a large sized carved sandalwood picture frame with an autographed photograph presented by His Highness the Yuvaraja of Mysore and four sundry articles for which there were no bidders were sold at the Town Hall. The value realized for the articles was fair and reasonable, the success of the sale at the Town Hall being greatly due to the interest taken by Mr. T. G. Lakshman Rao, President of the Mysore City Municipality.

Seeing the keen desire on the part of many gentlemen to possess an autographed photograph of His Highness the Yuvaraja as evinced by the bids made for the portrait sold at the first days auction, it was arranged to raffle the other photograph and sandalwood frame mentioned in the last para. The price of each ticket was fixed at Rs. 10 and each competitor was at liberty to subscribe for any number of such tickets. Fifty-five persons took part in the raffle subscribing for 66 tickets in all. Most of the subscribers were present at the Pavillion to witness the drawing of the prize. The prize was carried away by a Mysore student by name Mr. N. Krishnaswamy Rao.

Thus the total amount realized out of the sale of articles of gifts comes to Rs. 3,938, as noted below —

Notification No. 1366, *dated 11th December* 1917.

It is hereby notified for the information of the public that sealed tenders will be received at the office of the Director, Department of Geology, up to the 15th January 1918, in respect of the right to collect corundum in the Sidlaghatta Taluk, Kolar District, owing to the default on the part of the highest bidders in the sales held by the Treasury Assistant Commissioner, Kolar, on 2nd April 1917 and 23rd June 1917, to fulfil the terms of the sales.

2. The tenders should be submitted on printed forms which may be obtained from this office, and superscribed "Tender for collecting corundum in the Sidlaghatta Taluk."

3 Each tender should be accompanied by a fee of rupees ten and the deposit of the amount of the minimum royalty which the tenderer is prepared to guarantee for a period of one year at Rs. 4 per candy of corundum removed.

4. Under ordinary circumstances, the tender of the person, who guarantees the highest amount of minimum royalty will be accepted. Provided that the Government reserve to themselves the right to reject the highest or any tender without assigning any reason whatever for the rejection.

5. The successful tenderer will be granted a license to collect corundum in the said taluk under the rules published under Notification No. G. 2939—Geol. 8-15-16, dated 29th August 1916.

6. The period for which the license will be granted shall be one year from the date thereof.

7. If any person other than the owner of Survey No. 69 of Neradaguntahalli village of the said taluk happens to be the successful tenderer, the Government will acquire the surface right of the land in question and include it in a prospecting license to be granted to that person.

8. No corundum shall be removed from the licensed area without a written permit from the Amildar of the taluk. When the licensee wishes to remove any corundum which has been collected, he should forward to the Amildar a statement showing the amount of corundum collected from the licensed area, together with the royalty due on the total quantity and request permission to remove the same from the place where it is to some specified destination.

The Amildar may thereupon grant the permit required, taking such steps as he may consider necessary to satisfy himself of the correctness of the quantity to be removed.
